Passengers inspected.....	859
Vessel fumigated.....	1
Certificates issued, immune.....	2

ECUADOR.

Report from Guayaquil—Summary for month of November, 1907—Smallpox—Yellow fever—Case of leprosy on steamship Loa—Vaccinations—Fumigation of vessels.

Passed Assistant Surgeon Lloyd reports, December 12:

During the month of November, 1907, there were 246 deaths in Guayaquil; of these 1 was due to yellow fever and 21 were due to smallpox.

The steamship *Loa* arrived to-day carrying a leper who stowed away at Paita. As it was not possible to land the patient here, the master was recommended to isolate him on board, and a note was made on the bill of health to that effect.

Twenty immune certificates were issued during the month, 8 of which were for passengers going to Peruvian ports; 11 persons were vaccinated; 9 vessels were fumigated to kill vermin.

GERMANY.

Report from Berlin—Status of cholera in Russia.

The following is received from Consul-General Thackera, under date of December 13:

According to official statistics there were registered in the Russian Empire during the period from November 6 to 12, inclusive, 403 new cases of cholera with 225 deaths, comprising 68 cases with 24 deaths in the governmental district of Tomsk; 112 cases with 79 deaths in Tobolsk; 47 cases with 22 deaths in the middle Volga district; 41 cases with 23 deaths in the government district of Samara; 32 cases with 15 deaths in the governmental district of Ekaterinaslaw including the city of Rostow; 32 cases with 12 deaths in the Government district of Kursk (including Woronesch); 18 cases with 13 deaths in the city of Baku; 25 cases with 14 deaths in Tschernigow and Poltawa; 19 cases with 24 deaths in Akmolinsk; 7 cases with 8 deaths in the Moscow industrial district, and 2 cases with 1 death in the Government district of Minsk.
